

**Yellow Ducks (six weeks to fifteen months)**

This room allows infants/babies to receive love and attention to all their needs. With a separate play and nap area, there is plenty of space to learn how to roll over, sit up, crawl, and walk without disturbing babies who are sleeping. Each child also has their own crib to sleep in as their schedule demands.

W4C's provides Parent's Choice brand formula. You may provide your own formula or breast milk. When your child is ready, the center also provides cereal and homemade baby food. The classroom is staffed with one employee to every four infants/babies, with a maximum of twelve children at any time. Children will move to the Red Birds when developmentally ready (walking steadily, eating table food, and drinking from a sippy cup, etc.).
